

MUNITION ASSIST TOOL

The Fulcrum Munition Assist tool is just what every maintainer needs when it comes to loading rockets. The tool easily loads and locks rockets into the launcher. If needed, the tool also allows for safe rocket removal.

**FEATURES AN IMPROVED
ERGONOMIC DESIGN!**

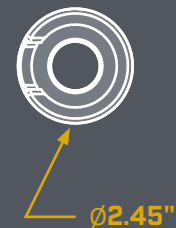

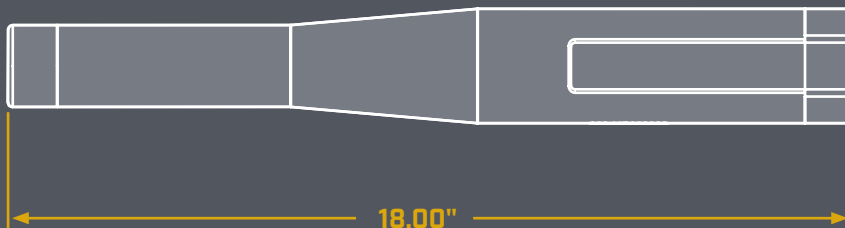

**MIL-STD-1686
COMPLIANT**

EASILY LOADS AND LOCKS ROCKETS

- ▶ Features improved ergonomic design
- ▶ Rubber-coated ends and non-conductive material exceeds all MIL-STD non-conductive and anti-static requirements, reducing potential damage to the rocket and equipment
- ▶ Tapered body reduces chance of tool “hanging up” on sharp edges of rocket pod
- ▶ Increased width of igniter arm slot allows easier use, especially in low visibility conditions
