

FIXED STORES CARRIER

Fulcrum's Fixed Stores Carrier provides a lighter weight alternative to standard bomb release units when you do not want a jettisonable station. Additionally, the fixed stores carrier provides a passthrough for ammunition chutes allowing access and routing to outboard stations.

- » Carries stores with 14" bomb lugs up to 1000 lbs
- » Lighter than a typical BRU which saves weight when jettison capability is not necessary
- » Compatible with M134 and GAU-19 external mounts
- » Ammo Feed passthrough compatible with 7.62 & .50 cal nobles chutes

CARRY WITH CONFIDENCE

Shown here carrying Fulcrum's Multi-Function Pod, which can quickly access up to 500 lbs of cargo or deploy a variety of sensor payloads.
