

MINI BOMB RACK UNIT

LIGHTWEIGHT MEANS MORE

Improve system performance, lethality, and endurance without sacrificing anything. More targets, more range, more endurance. The ultralight Mini-Bomb Rack Unit (Mini-BRU) weighs less than 2 lbs and safely secures weapons systems up to 50 lbs.

The mini-BRU can integrate into the Hellfire rail system, adding single-lug munitions to the range of options you can deploy without the time and expense of modifying the aircraft.

FLY FARTHER, FIGHT SMARTER

1 Hellfire Missile
1 Hellfire Rail

110
LBS

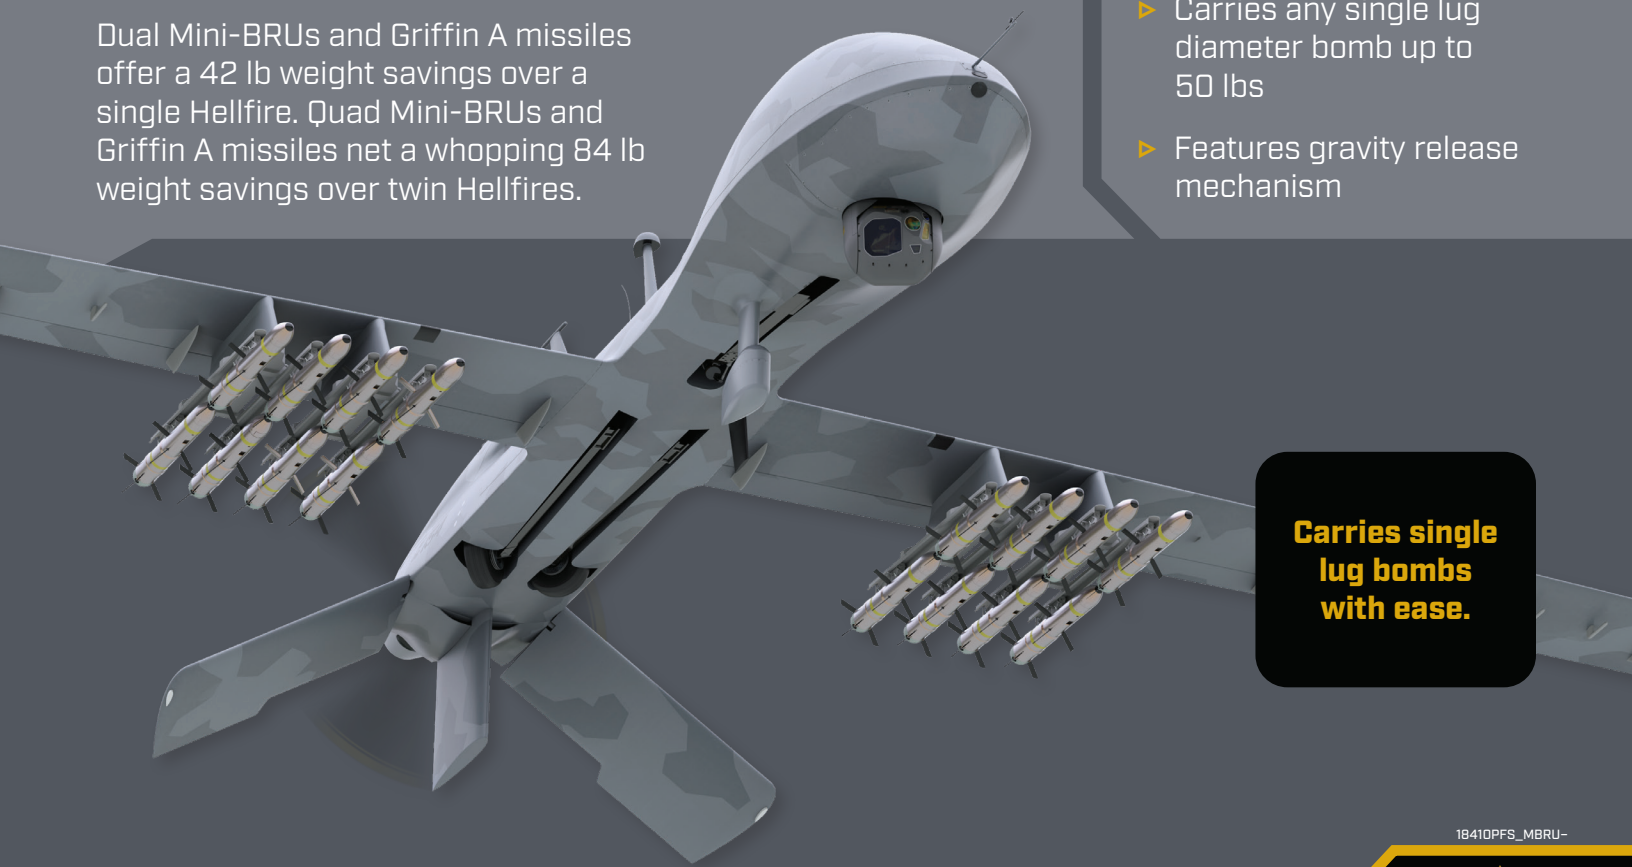

2 Griffin A Missiles
2 Mini-BRUs

68
LBS

Dual Mini-BRUs and Griffin A missiles offer a 42 lb weight savings over a single Hellfire. Quad Mini-BRUs and Griffin A missiles net a whopping 84 lb weight savings over twin Hellfires.

- ▶ Ultra lightweight (< 2 lbs)
- ▶ Integrated into Hellfire rail system with additional components
- ▶ Carries any single lug diameter bomb up to 50 lbs
- ▶ Features gravity release mechanism

**Carries single
lug bombs
with ease.**
