

The FARP kit is a mobile, self-contained package that provides all the necessary equipment to establish a two point FARP site.

KIT CONTENTS

- 1X** Collapsible grounding rod
- 1X** Collapsible rocket bore brush
- 1X** FCLLC rocket tool
- 2X** Recoiling grounding clamps
- 1X** Six piece rechargeable LZ light kit
- 1X** Fluke multi-meter
- 1X** Rocket test cable set (spider cable)
- 1X** Snap-On small parts box

Both variations of FCLLC's FARP kits contain these essential tools.

GET ORGANIZED

- ▶ Tool kit and consumables kit are contained in stackable Snap-On mobile tool chests
- ▶ Case is chemical resistant, dustproof, and watertight. Features a fold-down handle, wheels, and an automatic pressurization equalization valve
