

ALKAN BRU MULTI TOOL

FULCRUM'S MIGHTY MULTI TOOL

Uncomplicate your tool box. Fulcrum's ALKAN BRU Multi Tool does the work of three; its 8mm hex end acts as the Hook Lifting Control Key, its 6mm hex end interfaces with the ALKAN 1/4 Manual Lock Release, and it also has an integrated safing pin. Plus, it comes with a Remove Before Flight ribbon to reduce the likelihood of costly accidents. Install your munitions faster with Fulcrum's new multi tool.

Compatibility:

Tool Config A

Alkan 1216
ERU Series

Tool Config B

Alkan 2037
ERU Series

- ▶ Knurled aluminum body for a more secure grip
