

# FULCRUM CONCEPTS MINI-BRU

## LIGHTWEIGHT MEANS MORE

Improve system performance, lethality, and endurance without sacrificing anything. More targets, more range, more endurance. The ultralight Mini-BRU weighs less than 2 lbs and safely secures weapons systems up to 50 lbs.

Integrated neatly into the Hellfire rail system, the Mini-BRU more than doubles the munition capacity of your bird with no invasive modifications.

## FLY FURTHER, FIGHT SMARTER

1 Hellfire Missile  
1 Hellfire Rail

**110**  
**LBS**

2 Griffin A Missiles  
2 Mini-BRUs

**68**  
**LBS**

Dual Mini-BRUs and Griffin A's offer a 42 lb weight savings over a single Hellfire. Quad Mini-BRUs and Griffin A's net a whopping 84 lb weight savings over twin Hellfires.

- ▶ Ultra lightweight (< 2 lbs)
- ▶ Integrated into Hellfire rail system (no invasive modifications required)
- ▶ Carries any single lug diameter bomb up to 50 lbs
- ▶ Features gravity release mechanism

**Carries single lug diameter bombs with ease.**
