

C-12 AIR LAUNCHED EFFECTS

Fulcrum's C-12 Air Launched Effects Storage System (ALESS) expands the capabilities of this already-versatile aircraft platform. Deploy up to four ALEs from this discrete, low-profile system. Make use of the space, and expand your C-12 capabilities.

INCREASE YOUR CAPABILITIES, NOT YOUR PROFILE

- » 4 shot capable (2 each side)
- » Compatible with CLT and NOAA-standard launch tubes
- » Housed within modified Raisbeck wing locker
- » Wing lockers can be swapped with ferrying configuration lockers, concealing internal modifications
- » Installed with minimal aircraft modifications
- » Provisions for uplink/downlink antennae
- » Independent GPS antenna mounted in each locker
- » Provisions for mounting equipment racks in aircraft cabin
