

PRESS RELEASE

FULCRUM CONCEPTS INNOVATES WITH CONFIGURABLE LIGHTWEIGHT ARMAMENT WING (CLAW) FOR THE ARMED BLACK HAWK

Multi-station Armed Black Hawk Capability Reimagined with Fulcrum Concepts' CLAW

24 April 2020. Fulcrum Concepts, LLC, a leading provider of responsive and comprehensive weapons system integration capabilities, announced that it will provide their innovative multi-station CLAW for Armed Black Hawk helicopters. The CLAW represents Fulcrum Concepts ongoing commitment to offering comprehensive solutions for a variety of weaponized air, land, or sea platforms.

For the first time, Armed Black Hawk customers are not forced to choose between a single station or dual station wing. This operational flexibility is provided to CLAW customers in a single product offering that will support a diverse mixture of weaponry to include M230, 2.75” rockets, Hellfire, GP-19, HMP-400 as well as a mixture of smaller systems. Weapons may be direct mounted to wings or secured with a variety of available ejector racks depending on customer requirements.

At nearly 400 pounds lighter than comparable systems, the CLAW is designed to allow users to rapidly reconfigure from a “slick” assault platform to an Armed 2-or-4 station configuration within minutes. The lightweight aluminum design allows infinite repairability at any level without any requirement for special tooling or technicians. The CLAW truly represents a powerful solution for the Armed Black Hawk in terms of rapid integration and increased reliability.

###

ABOUT FULCRUM CONCEPTS, LLC:

Fulcrum Concepts, LLC is a service disabled, veteran-owned, small business that provides innovative services and products to solve requirements for its customers. Fulcrum Concepts, LLC specializes in solutions for tactical aviation organizations and is structured to provide comprehensive solutions that begin with an initial requirement and end with fielded products. At Fulcrum Concepts, the unique combination of operational experience and a robust aerospace engineering capability enable the company to provide elegant, light-weight, enduring solutions for its customers.
