

MUNITION ASSIST TOOL

The Fulcrum Munition Assist Tool is just what every maintainer needs when it comes to installing rockets. The tool easily installs and locks rockets into the launcher. If needed, the tool also allows for safe removal of the rockets.

**FEATURES AN IMPROVED
ERGONOMIC DESIGN!**

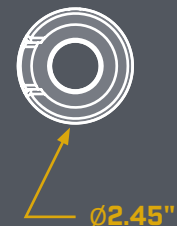

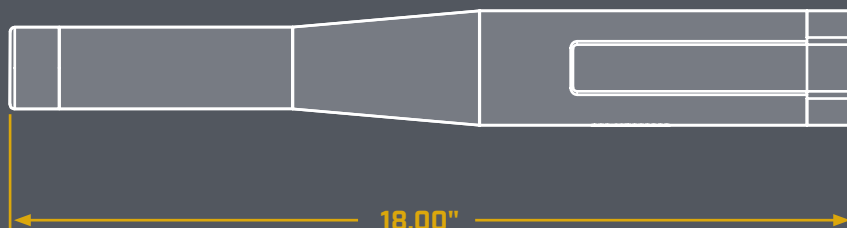

**MIL-STD-1686
COMPLIANT**

EASILY INSTALLS AND LOCKS ROCKETS

- ▶ Features improved ergonomic design
- ▶ Tapered body reduces chance of tool “hanging up” on sharp edges of rocket pod
- ▶ Rubber-coated ends and non-conductive material exceeds all MIL-STD non-conductive and anti-static requirements, reducing potential damage to the rocket and equipment
- ▶ Increased width of igniter arm slot allows easier use, especially in low visibility conditions
