

BLACK HAWK WEAPONIZATION

Enhanced Combat Package [P/N: 210160KT-001]

Need to get birds into the fight immediately?

Fulcrum's Black Hawk Enhanced Combat Package will boost your lethality in a versatile, rapidly reconfigurable manner.

SHARPEN YOUR CLAWS

COMPONENTS PACKAGE

Fulcrum's weaponization package for the UH-60 expands the platform's combat mission profile like no other modification.

This comprehensive package removes the long integration and qualification timelines associated with an à la carte approach.

AVAILABLE ACCESSORIES

Fulcrum also offers a variety of accessories to support weaponized aircraft operations. Solutions include enhancements that increase weapons reliability, tool kits designed by maintainers for maintainers, and carts and storage solutions that keep the flight line safe and effective.
